

# Certified for Microsoft Dynamics® Solutions

Proven. Tested. Recommended.

## Need proof before you buy a new solution?

Your company is uniquely designed to fill a specific need in the market—that's what makes you successful. That's also why you need a business solution that is proven to meet your unique needs. You want assurance that the solution you invest in meets the highest quality standards, is backed by a reputable company who is as committed to your success as you are, and—most importantly—is recommended by other companies like yours.

Microsoft set the bar high by developing the Certified for Microsoft Dynamics accreditation. It sets a small group of proven, tested, and recommended business solutions apart from thousands of other solutions that have not met the rigorous requirements.

Axonom has earned the Certified for Microsoft Dynamics accreditation.

Solutions that are Certified for Microsoft Dynamics have met Microsoft's highest standard for partner-developed solutions. They are:

- Designed to help meet your unique business and industry needs
- Tested and seamlessly integrated with Microsoft Dynamics products
- Used and recommended by other companies like yours

## Here it is.

See how choosing Certified for Microsoft Dynamics solutions have helped these companies:

### Compellent Technologies

"The combination of Microsoft Dynamics CRM and Powertrak is helping Compellent provide the tools and information its reseller partners need for increased business success."

*Michael Beach, Vice President of Sales Operations*

### Roland DGA Corporation

"By utilizing Axonom's Powertrak Application Builder, Allocation Workflow and Partner Portal, Roland DGA was able to decrease the time it takes to fulfill literature to the end customer prospect and distribute leads to its channel by 94%." *Bob McMahon, Senior Business Systems Manager*

Choosing a solution that's Certified for Microsoft Dynamics can give you the proof you need.

## Proven. Tested. Recommended.
